

Membership Charter

Members support

sustainable development of infrastructure by contributing to the activities of and working in conjunction with the Infrastructure Sustainability Council.

Members lead, promote and seek

continuous improvements in the areas of social, environmental, cultural and economic performance.

Members commit

to principles of behaviour that contribute to sustainable development in infrastructure:

- 1.** Integrate sustainable development principles within their corporate decision-making processes
- 2.** Implement processes, plans and key performance indicators to continuously seek improvements in social, environmental, cultural and economic performance
- 3.** Encourage and facilitate responsible planning, design, construction and operational practices
- 4.** Uphold fundamental human rights and respect cultures, customs, and values in dealing with communities and employees
- 5.** Implementing and maintaining ethical businesses, projects and sound systems of corporate governance
